# ALL NATURAL 100% PURE MAPLE SYRUP

## Tree to Table

Maple syrup has become a fundamental, all-natural sweetener known for its distinct flavor and beneficial minerals and antioxidants.

Our maple syrup goes on a journey starting in our northern forests, where the world's finest syrup is born. Maple sap is taken straight from the trees as they wake up for spring. It is then boiled down to maple syrup in a process that has gone unchanged for centuries.

## Why Pure Maple Syrup?

- 100% pure, grade A maple syrup, tree to table
- No preservatives, flavors, colors, or additives
- Contains vitamins, minerals, and antioxidants
- Allergen-free

**Fun Fact:** It takes roughly 40 gallons of maple sap to make 1 gallon of maple syrup!

## Our Premium Product, Your Premium Brand

We make it easy to create your own branded maple syrup! With premium Vermont quality, flexible packaging, and a proven process, our private label program delivers a product your customers will trust - **with your brand front and center.**

## Who We Serve

Our private label program is trusted by some of the most recognized names in foodservice and hospitality.

- **Restaurants, Hotels, and Resorts** - Elevate the guest experience - table service, room service, and buffets.
- **Retail Grocers** - Put your name on maple syrup that customers can feel good about taking home.

*Private label available for most products!*
